:

Tara is an assistant professor in the DPT program at the University of South Alabama. Tara received her DPT degree from the University of South Alabama. She is an ABPTS certified Neurologic Clinical Specialist and has clinical experience in acute, inpatient rehab, and outpatient physical therapy. She currently teaches in the clinical skills, movement analysis, and neurology curriculum. She recently obtained certification through the APTA Vestibular Competency Course and has a special interest in vestibular physical therapy and vestibular research.

: Thursday, September 5th; 5:45 p.m. - 8:45 p.m.

In-person

University of South Alabama Department of Physical Therapy. Room: HAHN 2048

: Vestibular migraine is the third most common vestibular disorder in the adult population; however, it is vastly underdiagnosed and undertreated in our area. This course will empower you with the ability to identify signs and symptoms of vestibular migraines in your patients.
